

Klove radio serves me and provides positive uplifting music that helps the local community. There is never anything offensive, no commercials, it is family driven.

The entire family can listen without any worries. Displacing Klove by an LPFM broadcaster would only do harm to a community that needs positive family oriented

music. Klove provides endless motivation towards the community to do what is right, to say what is right, to treat people with respect and promotes family togetherness as a

whole. It is a comfort to know that I can tune into Klove and know what is going to

be said and not worry about things that most stations talked about in today's world.
